

PROFESSIONAL SUMMARY

Product-focused UI/UX Designer with 2+ years of experience in Web3 startups. Contributed to the development of a cryptocurrency analytics platform, AI Trading Agent, and decentralized trading platform. Experienced in user research, competitor analysis, feature planning, and cross-functional collaboration to drive product improvements.

WORK EXPERIENCE

UI/UX Designer | WuChi Technology Company Limited2023.10 - 2026.06

Cryptocurrency Analytics Platform

- Planned product features and designed web/mobile experiences to support users' investment decisions.
- Conducted user research, competitor analysis, and data reviews to identify product opportunities.
- Optimized core features based on user feedback and behavioral data, contributing to a feature that generated ~60% of platform traffic.

AI Trading Agent

- Designed user flows and onboarding experiences for an AI-powered quantitative trading tool.
- Created documentation, tutorials, and training materials to improve product adoption.
- Identified onboarding drop-off points through workshops and user feedback.

Decentralized Validation Copy Trading Platform

- Designed ranking, voting, and trader evaluation experiences.
- Conducted usability testing and optimized user flows to reduce learning barriers for new users.
